### OPTIONAL ACCESSORIES

Optional fences interchange readily, with standard.  
Available for octagon & hexagon frames.

① Standard quick set stop for rapid frame assembly.

Model VN-M with optional pneumatic power feed kit installed. Kit supplied with air-line filter, lubricator and regulator. Installs in minutes. Foot pedal can be used 360° around the machine. Available in kit form or factory installed.

### SPECIFICATIONS--MODEL VN-M

Weight	
Crated (domestic)	150 lbs. (67.5 kg)
Crated (export)	175 lbs. (78.8 kg)
Uncrated	100 lbs. (45.4 kg)
Electrics	None required
Table height from floor	36" (914mm)
Actuation	Foot lever with interconnected sequential material clamping and nail insertion. Force and movement via leverage. Extension spring return.
Foot pedal height from floor	10" (254mm)
Foot pedal travel	9" (229mm)
Work table positions	Horizontal only.
Air consumption	Required for air feed option only 72 CFM at 65 PSI
Minimum size frame	2' x 2' (51mm x 51mm)
Minimum width moulding	1 1/2" (10mm)
Maximum width moulding	4" (102mm)
Nail location adjustment range relative to outside lip	3/4" (4.7mm) to 3" (76.2mm)
Maximum height moulding	2 1/4" (66.8mm)
Minimum height moulding	3/4" (11mm)
Nail length range	1/4" 3/8" 1/2" 5/8" (6mm) (10mm) (13mm) (16mm)
Magazine capacity	250 Vee Nails
Fence height standard	3/4" (10mm)
Overall size	22" W x 29" L x 43" H (558mm) (736mm) (1092mm)

Subject to specification and engineering changes without notice.

Frame table supports larger frames. Build it yourself.
